July 28th.

1926

My dear Mr Pfeiffer-

When your letter came this morning I thought, Well- it is really over now and there wont be anything more to bother you about but this afternoon's mail brought the enclosed. I always know when I see an envelop addressed in this manner that it is something unpleasant.

Is there nothing to do to that horrible news paper? I am told that both it and the Graphic have stopped printing any new stories. Were these questions some of those printed and referred to in the telegram I sent you?

I hate having all this come up just when all my family and friends are going or have gone away.

Did you ever think that that women who sent the telegram from Wisconsin was worth investigating?

When do you start on you holiday?

Very sincerely

James H. Hall
